

Utility Capital Improvement Projects (UCAP) - Program Changes

With the loss of revenue and uncertain future revenues, the City of Tampa is taking a cautious, scaled back approach to incurring debt for its total utility capital program. The Dale Mabry Water Quality and Flood Relief Project has been deferred contingent upon availability of funds in the future.

If you have any questions regarding any of the UCAP projects, please call the UCAP hotline, (813) 777-9222.

Sincerely,
The UCAP Team
